TOWN OF SUNDRE

WILDFIRE RISK REDUCTION

PLANNED VEGETATION MANAGEMENT • WINTER 2026/27

WHAT'S HAPPENING?

The Town of Sundre is completing selective vegetation management in municipally managed forested areas to reduce wildfire risk.

WHY THIS WORK MATTERS

Reducing hazardous forest fuels can help lower wildfire intensity near homes and critical infrastructure, while maintaining forest health and the Town's natural character.

WHAT WILL IT LOOK LIKE?

Crews will selectively remove hazardous and dead vegetation and prune evergreen trees to reduce wildfire fuel and maintain a healthy, natural landscape.
